

COMPANY DESCRIPTION/BOILERPLATE

Vectorworks, Inc.

100-word description

Vectorworks, Inc. is an award-winning design and BIM software provider serving the architecture, landscape architecture and entertainment industries in 85 countries. Built with designers in mind since 1985, Vectorworks software offers you the freedom to follow your imagination wherever it leads you. Globally more than 685,000 users are creating, connecting and influencing the next generation of design with Vectorworks on Mac and Windows. Headquartered in Columbia, Maryland, with offices in the UK, Canada and Australia, Vectorworks is a part of the [Nemetschek Group](#). Learn how you can design without limits at vectorworks.net or follow @Vectorworks.

PRODUCT DESCRIPTIONS

*50-word descriptions are evergreen product descriptions.

*100-word descriptions are the 50-word descriptions, plus Vectorworks 2022 insights.

Vectorworks Architect

50-word description

Built to showcase your skills and creativity, Vectorworks Architect offers all the design, rendering, documentation and collaboration tools you need—from 2D graphics to 3D modeling to fully integrated BIM. Architect is the comprehensive, powerful solution that combines absolute creative expression with maximum efficiency. vectorworks.net/architect

100-word description

Built to showcase your skills and creativity, Vectorworks Architect offers all the design, rendering, documentation and collaboration tools you need—from 2D graphics to 3D modeling to fully integrated BIM. Architect is the comprehensive, powerful solution that combines absolute creative expression with maximum efficiency. With a continued focus on re-engineering and modernization of core architectural objects and data reporting to support the creation of precise BIM models, Vectorworks Architect 2022 offers workflow improvements for greater precision, control, and accuracy for the visual model and the corresponding data. Wherever your ideas take you, you'll get there faster with Vectorworks 2022. vectorworks.net/architect

Vectorworks Landmark

50-word description

Transform your design, modeling and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape architects and designers. With intelligent objects, powerful databases and flexible documentation features, Landmark streamlines integrated 2D and 3D landscape-specific BIM workflows all in one application.

VECTORWORKS[®]
A NEMETSCHEK COMPANY

100-word description

Transform your design, modeling and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape architects and designers. With intelligent objects, powerful databases and flexible documentation features, Landmark streamlines integrated 2D and 3D landscape-specific BIM workflows all in one application. The purpose-built tools for landscape design included in Vectorworks Landmark 2022 make it simpler to produce landscape BIM models, support the demand to create sustainable sites, and create tight integrations between landscape BIM and GIS workflows. Wherever your ideas take you, you'll get there faster with Vectorworks 2022.

Vectorworks Spotlight

50-word description

Built to showcase your skill and creativity, Vectorworks Spotlight is the market leading solution allowing you to design, document and produce events and permanent installations. With an extensive suite of drawing, modeling, illustration and rendering tools, Spotlight lets you go from concept to fully created model within a single workflow. vectorworks.net/spotlight

100-word description

Built to showcase your skill and creativity, Vectorworks Spotlight is the market leading solution allowing you to design, document and produce events and permanent installations. With an extensive suite of drawing, modeling, illustration and rendering tools, Spotlight lets you go from concept to fully created model within a single workflow. With a continued commitment to better file performance, more responsive tools, and consolidated features, Vectorworks Spotlight 2022 provides consistency in behaviors between the tools and commands in our entertainment products and adds functionality that simplifies your workflows. Wherever your ideas take you, you'll get there faster with Vectorworks 2022. vectorworks.net/spotlight

Vision

50-word description

Previsualize your lighting, projection and production designs from Vectorworks Spotlight with Vision. Send fixture and model information directly to Vision to previsualize, program and cue your show without needing to be at the venue or having the crew on standby. vectorworks.net/vision

100-word description

Previsualize your lighting, projection and production designs from Vectorworks Spotlight with Vision. Send fixture and model information directly to Vision to previsualize, program and cue your show without needing to be at the venue or having the crew on standby. Vision 2022 offers the addition of Pangolin's technology, allowing

you to add laser projectors. Vision also supports controlling lasers using Pangolin BEYOND software. vectorworks.net/vision

Braceworks

50-word description

The Braceworks® add-on module for Vectorworks Spotlight provides design, production and rigging professionals an easy way to gauge the performance of temporary structures under load. This helps you ensure safety and compliance with engineering codes and standards with a single modeling, analysis and documentation process. vectorworks.net/braceworks

100-word description

The Braceworks® add-on module for Vectorworks Spotlight provides design, production and rigging professionals an easy way to gauge the performance of temporary structures under load. This helps you ensure safety and compliance with engineering codes and standards with a single modeling, analysis and documentation process. Vectorworks 2022 includes Magnets to allow for better control when joining sections of trusses using the AutoConnect system, providing a quick and consistent method for connection. vectorworks.net/braceworks

ConnectCAD

50-word description

The ConnectCAD add-on to Spotlight helps you plan large-scale AV installations and other integrated systems with ease. Check the system for errors with 2D diagrams and 3D renders that ensure effective communication with onsite installation technicians, plus access all the import/export capabilities native to Vectorworks. vectorworks.net/connectcad

100-word description

From simple to complex, The ConnectCAD add-on to Spotlight helps you plan large-scale AV installations and other integrated systems with ease. Check the system for errors with 2D diagrams and 3D renders that ensure effective communication with onsite installation technicians, plus access all the import/export capabilities native to Vectorworks. ConnectCAD 2022 offers the new eyedropper mode, a simplified device editing workflow, improvements on the Device Builder and signal type editing. ConnectCAD Cable Route Planning provides access to a full-featured cable planning system that allows you to plan cable runs and drops, perform calculations and more. vectorworks.net/connectcad

Vectorworks Fundamentals

50-word description

Built to showcase your skill and creativity, Vectorworks Fundamentals offers superior 2D and 3D capabilities and an intuitive modeling and documentation platform. Freely sketch, model and document your design ideas with precision drafting capabilities and

the most flexible 3D modeling engine available, powered by SIEMENS Parasolid.
