

COMPANY DESCRIPTION/BOILERPLATE

Vectorworks, Inc.

100-word description

Vectorworks, Inc. is an award-winning design and BIM software provider serving the architecture, landscape architecture and entertainment industries in 85 countries. Built with designers in mind since 1985, Vectorworks software offers you the freedom to follow your imagination wherever it leads you. Globally more than 685,000 users are creating, connecting and influencing the next generation of design with Vectorworks on Mac and Windows. Headquartered in Columbia, Maryland, with offices in the UK, Canada and Australia, Vectorworks is a part of the [Nemetschek Group](#). Learn how you can design without limits at vectorworks.net or follow @Vectorworks.

PRODUCT DESCRIPTIONS

*50-word descriptions are evergreen product descriptions.

*100-word descriptions are the 50-word descriptions, plus Vectorworks 2024 insights.

Vectorworks Architect

50-word description

Built to showcase your skill and creativity, Vectorworks Architect allows you to sketch, model and document in a fully integrated workflow with the world's most design-centric BIM solution. With superior 2D graphics, 3D modeling and visualization tools, Architect is built to deliver absolute creative expression and maximum efficiency. vectorworks.net/architect

100-word description

Built to showcase your skill and creativity, Vectorworks Architect allows you to sketch, model and document in a fully integrated workflow with the world's most design-centric BIM solution. With superior 2D graphics, 3D modeling and visualization tools, Architect is built to deliver absolute creative expression and maximum efficiency. With enhancements that spark limitless creativity, Vectorworks Architect 2024 delivers comprehensive workflow solutions that automate processes, reduce risk and save time, including a modernized user interface, the ability to save custom viewport settings as styles and robust parametric objects redefined to address your specific needs. Empowering you to design without limits. vectorworks.net/architect

Vectorworks Landmark

50-word description

Transform your design, modeling and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape architects and designers. With intelligent objects, powerful databases and flexible documentation features, Landmark streamlines integrated 2D and 3D landscape-specific BIM workflows all in one application. vectorworks.net/landmark

100-word description

Transform your design, modeling and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape

architects and designers. With intelligent objects, powerful databases and flexible documentation features, Landmark streamlines integrated 2D and 3D landscape-specific BIM workflows all in one application. With enhancements that spark limitless creativity, Vectorworks Landmark 2024 delivers intuitive design tools that enable meaningful participation in the BIM process. These include a more efficient and customizable user interface, a new automated Fence tool and a dedicated nature-focused color palette. Empowering you to design without limits. vectorworks.net/landmark

Vectorworks Spotlight

50-word description

Built to showcase your skill and creativity, Vectorworks Spotlight is the market-leading solution allowing you to design, document and produce shows and events. With extensive drawing, modeling, database, documentation and collaboration tools, Spotlight helps you go from concept to fully created model within a single workflow. vectorworks.net/spotlight

100-word description

Built to showcase your skill and creativity, Vectorworks Spotlight is the market-leading solution allowing you to design, document and produce shows and events. With an extensive suite of drawing, modeling, database, documentation and collaboration tools, Spotlight helps you go from concept to fully created model within a single workflow. With enhancements that spark limitless creativity, Vectorworks Spotlight 2024 delivers features focused on providing automated solutions to manual, complex and repetitive tasks experienced in the Entertainment industry, including Equipment Lists to plan and document equipment and streamline the preproduction process. Empowering you to design without limits. vectorworks.net/spotlight

Vision

50-word description

Previsualize your Vectorworks Spotlight show and event designs with Vision. Use MVR to send fixture and model information directly to Vision to previsualize, program and cue your show without needing to be at the venue or having the crew on standby. vectorworks.net/vision

Braceworks

50-word description

The Braceworks® add-on module for Vectorworks Spotlight provides an easy and efficient way to gauge the performance of your suspended rigging system under load. Helping you ensure safety and compliance with engineering codes and local legal standards with a single modeling, analysis and documentation process. vectorworks.net/braceworks

ConnectCAD

50-word description

From simple to complex, ConnectCAD takes the pain out of planning and installing large-scale A/V installations and other integrated systems. Create your system schematic and check for errors with automated commands. Ensure effective communication with your installation team and track and integrate on-site changes to deliver the final as-built documentation. vectorworks.net/connectcad

**100-word description**

From simple to complex, ConnectCAD takes the pain out of planning and installing large-scale A/V installations and other integrated systems. Create your system schematic and check for errors with automated commands. Ensure effective communication with your installation team and track and integrate on-site changes to deliver the final as-built documentation. ConnectCAD 2024 offers access to more accurate and timely design data with the “Share Reports” command and the ability to quickly design and edit equipment racks with the new unified 3D Rack workflow. Empowering you to design without limits.

vectorworks.net/connectcad

Vectorworks Fundamentals**50-word description**

Built to showcase your skill and creativity, Vectorworks Fundamentals offers superior 2D and 3D capabilities and an intuitive modeling and documentation platform. Freely sketch, model and document your design ideas with precision drafting capabilities and the most flexible 3D modeling engine available, powered by SIEMENS Parasolid. vectorworks.net/fundamentals

Vectorworks Fundamentals**100-word description**

Built to showcase your skill and creativity, Vectorworks Fundamentals offers superior 2D and 3D capabilities and an intuitive modeling and documentation platform. Freely sketch, model and document your design ideas with precision drafting capabilities and the most flexible 3D modeling engine available, powered by SIEMENS Parasolid. With enhancements that spark limitless creativity, Vectorworks Fundamentals 2024 delivers significant updates, including a modernized user interface, upgraded 3D Dragger that provides more freedom when transforming models and improvements to Shaded Rendering that allow you to create higher levels of realism earlier in the design process. Empowering you to design without limits.
