COMPANY DESCRIPTION/BOILERPLATE

Vectorworks, Inc.
100-word description

Vectorworks, Inc. is an award-winning design and BIM software provider serving the architecture, landscape architecture and design, and entertainment industries in 85 countries. Professionals worldwide are using Vectorworks on Mac and Windows to create, connect, and influence the next generation of design. Built with designers in mind since 1985, Vectorworks software offers you the freedom to follow your imagination wherever it leads you. Headquartered in Columbia, Maryland, with offices in the UK, Canada, Australia, and Japan, Vectorworks is a part of the Nemetschek Group. Learn how you can design without limits at vectorworks.net or follow @Vectorworks.

PRODUCT DESCRIPTIONS
*50-word descriptions are evergreen product descriptions.
*100-word descriptions are the 50-word descriptions, plus Vectorworks 2026 insights.

Vectorworks Architect
50-word description
Built to showcase your skill and creativity, Vectorworks Architect allows you to sketch, model, and document in a fully integrated workflow with the world's most design-centric BIM solution. With superior 2D graphics, 3D modeling, visualization tools, and cloud-based collaboration, Vectorworks Architect is built to deliver creative expression and maximum efficiency. vectorworks.net/architect

100-word description
Built to showcase your skill and creativity, Vectorworks Architect allows you to sketch, model, and document in a fully integrated workflow with the world's most design-centric BIM solution. With superior 2D graphics, 3D modeling, visualization tools, and cloud-based collaboration with Vectorworks Cloud services, Architect is designed to deliver absolute creative expression and maximum efficiency. Drive your sustainable vision further with Vectorworks Architect 2026. Unlock faster, more insightful workflows with the Sustainability Dashboard for carbon calculations, intuitive Worksheet Slicing, advanced Depth Cueing, and powerful Door and Window Assembly tools, giving you even more creative freedom to design without limits. vectorworks.net/architect

Vectorworks Landmark
50-word description

Transform your design, modeling, and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape architects and designers. With intelligent objects, powerful databases, flexible documentation features, and cloud-based collaboration, Landmark streamlines integrated 2D and 3D landscape-specific sustainable BIM workflows all in one application. vectorworks.net/landmark

100-word description
Transform your design, modeling, and presentation workflows with Vectorworks Landmark, the industry-leading landscape-focused BIM software solution made specifically for landscape architects and designers. With intelligent objects, powerful databases, flexible documentation, and cloud-based collaboration with Vectorworks Cloud Services, Landmark streamlines integrated 2D and 3D landscape-specific sustainable BIM workflows all in one application. Vectorworks Landmark 2026 empowers you to cut through busy work and create smarter, ecologically supportive landscape designs. Unearth features and workflows like the impactful Sustainability Dashboard and the Plant Style Manager to aid automation, enable seamless customization, and simplify compliance, giving you even more freedom to design without limits. vectorworks.net/landmark

Vectorworks Spotlight
50-word description
Built to exemplify your skill and creativity, Vectorworks Spotlight is the market-leading solution allowing you to design, document, previsualize, and produce shows and events. With extensive drawing, modeling, database, documentation, and cloud-based collaboration tools, Spotlight helps you go from concept to fully created model within a single workflow. vectorworks.net/spotlight

100-word description
Built to exemplify your skill and creativity, Vectorworks Spotlight is the market-leading solution allowing you to design, document, previsualize, and produce shows and events. With a suite of drawing, modeling, database, documentation, and collaboration tools like Vectorworks Cloud Services, Spotlight helps you go from concept to finished model within a single workflow. Break free from routine and bring your most creative work to life in Vectorworks Spotlight 2026 with next-level LED displays, Worksheet Slicing, and robust features that streamline documentation and ensure your designs look, perform, and communicate as you envision, giving you even more freedom to design without limits. vectorworks.net/spotlight

Vision
50-word description
Previsualize your Vectorworks Spotlight show and event designs with Vision. Use MVR to send fixture and model information directly to Vision to previsualize, program, and

cue your show without needing to be at the venue or having the crew on standby.
vectorworks.net/vision

Braceworks
50-word description
The Braceworks® add-on module for Vectorworks Spotlight provides an easy and efficient way to gauge the performance of your suspended rigging system under load. Helping you ensure safety and compliance with engineering codes and local legal standards with a single modeling, analysis, and documentation process.
vectorworks.net/braceworks

ConnectCAD
50-word description
From simple to complex, ConnectCAD takes the pain out of planning and installing large-scale A/V installations and other integrated systems. Create your system schematic and check for errors with automated commands. Ensure effective communication with your installation team and track and integrate on-site changes to deliver the final as-built documentation. vectorworks.net/connectcad

100-word description
From simple to complex, ConnectCAD takes the pain out of planning and installing large-scale A/V installations and other integrated systems. Create your system schematic and check for errors with automated commands. Ensure effective communication with your installation team and track and integrate on-site changes to deliver the final as-built documentation. ConnectCAD 2026 empowers you to drive your AV designs forward with purpose-built features like a Device Database, which eliminates external files and improves accuracy when creating, updating, and exchanging custom device definitions, giving you even more freedom to design without limits. vectorworks.net/connectcad

Vectorworks Fundamentals
50-word description
Built to showcase your skill and creativity, Vectorworks Fundamentals offers superior 2D and 3D capabilities and an intuitive modeling and documentation platform. Freely sketch, model, and document your design ideas with precision drafting capabilities and the most flexible 3D modeling engine available, powered by SIEMENS Parasolid.

Vectorworks Fundamentals
100-word description
Built to showcase your skill and creativity, Vectorworks Fundamentals offers superior 2D and 3D capabilities, intuitive modeling, and detailed documentation in a single CAD platform. Freely sketch, model, and document your design ideas with precision drafting capabilities and the most flexible 3D modeling engine available, powered by

SIEMENS Parasolid. Helping you focus on your big ideas, Vectorworks Fundamentals 2026 offers automated Depth Cueing for drawing clarity, Worksheet Slicing to organize and format large datasets with ease, and other tools and workflows that give you even more freedom to design without limits. vectorworks.net/fundamentals
